Dear Hiring Manager,

I'm excited to express my interest in an internship or entry-level role at your organization. As a Computer Science student at Nawab Shah Alam Khan College of Engineering and Technology, I'm looking for an opportunity where I can put my skills into practice, learn from real-world challenges, and grow as a developer.

I've built a solid foundation in programming through courses and personal learning—especially in Python and C. I enjoy solving problems, learning new technologies, and working on projects that make a difference. I've also taken part in online courses like Python and Data Science 101 to strengthen my knowledge.

Beyond technical skills, I bring curiosity, a willingness to learn, and the ability to adapt quickly. I genuinely enjoy collaborating with others and believe that strong communication and teamwork are just as important as coding.

I'm enthusiastic about contributing to a team that values innovation and growth. Thank you for considering my application—I'd love the chance to be a part of your journey while building my own.

Sincerely,
Maniyar Humera Muskan
